PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience building scalable, high-performance web applications using React.js, TypeScript, and modern JavaScript. Experienced in frontend architecture, state management, performance optimization, reusable component development, and automated testing. Currently leading frontend development for enterprise Account and Taxation applications, mentoring engineers, and driving technical decisions and delivery quality.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

State Management & UI: Redux, React Query, shadcn/ui, Radix UI

Backend & Databases: Node.js, REST APIs, GraphQL, MongoDB, MySQL, SQL

Testing & Tools: Jest, Git, GitHub, Postman, Vercel, Figma

AI-Assisted Development: Claude, Cursor

PROFESSIONAL EXPERIENCE

Engineering Lead | Persistent Systems

Indore, India | 2025–Present

- Lead frontend development for enterprise Account and Taxation applications, guiding architecture, implementation, and delivery across a team of five engineers.
- Led development of a microservices-backed frontend platform serving 100K+ users, contributing to architecture decisions and delivery quality across multiple modules.
- Improved application performance by approximately 40% through bundle optimization, code splitting, memoization, and rendering profiling.
- Implemented unit and integration testing practices that reduced production bugs by approximately 60% and shortened regression cycles.
- Adopted TypeScript across new modules to improve type safety, maintainability, and code quality.
- Mentor engineers through code reviews, pairing, and AI-assisted development workflows.

Senior Solution Engineer | Deqode Solutions

Indore, India | Feb 2022–2025

- Developed responsive React applications for client products, collaborating with UX teams to deliver intuitive and accessible user experiences.
- Built a reusable component library adopted across five or more products, standardizing UI patterns and reducing duplicated frontend work.
- Improved page load times by approximately 50% through asset optimization, lazy loading, and improved data-fetching patterns.
- Collaborated with UX teams on a shared design system, aligning React components with design tokens and accessibility guidelines.
- Led bug triage, feature development, API integration, unit testing, and code reviews across React and Redux codebases.

Frontend Developer | Tata Consultancy Services

Mumbai, India | Jun 2019–Feb 2022

- Developed and maintained enterprise web applications using React.js, JavaScript, HTML, and CSS across pharma and consulting domains.
- Built reusable UI components and integrated REST APIs for data-driven dashboards and content modules.
- Worked with backend teams on Node.js-backed services and modular frontend architecture.
- Used TypeScript to improve type safety and maintainability across application workflows.

SELECTED PROJECTS

Carpool Booking Platform | Next.js, TypeScript, MongoDB

- Developing a full-stack carpool booking application with driver and rider roles, stop-based filtering, capacity limits, and cancellation cutoffs.

- Built using Next.js App Router, Tailwind CSS, shadcn/ui, MongoDB Atlas, Mongoose, and JWT authentication.

Ujjain City Guide | React, TypeScript

- Built a bilingual English/Hindi city guide covering temples, hotels, events, and emergency contacts.
- Implemented a custom typography system and image fallback handling.

EDUCATION

Bachelor of Engineering, Electronics & Telecommunication | Medi-Caps Institute of Technology and Management
Indore, Madhya Pradesh | 2015–2019
